The Population Register contains information on all persons who have resided in Greenland after 1 January 1977.

The purpose of the register is to be the basis for population statistics, and to supplement other personal information with basic information about each person, like address and family relations. The Population register is updated with information from CPR (Administrative Population Register) where the following information is retrieved: name, gender, age, place of birth, citizenship, marital status, reference to mother, father and spouse, address of residence and more.

According to §13 of the Act on Greenland Statistics, no person-related information is disclosed from the register, except for personal numbers, randomly drawn for surveys

This table has been based on information on addresses in the population registers (CPR). A household consists of all person registered with identical address. The slightest difference between the informations results that persons, who in reality live together, statistically are placed in different households. Changes in the number of households over time can be explained partly by changes in reporting practices by local registrants.

Statistics Greenland advises caution when using this table.

Households outside municipalities and Iqitutt district reflects local registration practice.

time: Kangerslussuaq became part of Sisimiut municipality in 2002.
