In 2017, the Regional Reform was adopted in the Norwegian parliament. From 1 January 2020, Norway went from having 18 to 11 counties. The growth rates from 2019 to 2020 in the new counties are calculated in relation to the sum of the old counties that were merged and due to the fact that some municipalities changed their county affiliation, there will be a break in the timeseries for the affected counties.

In November 2022, the national accounts carried out a backward revision in the timeseries where a number of industries were affected. The county figures have been revised back to 2008 as a result of the backward revision.

2015. Discontinuity in service activities incidental to oil and gas.

2015. Discontinuity in wholesale and retail trade, repair of motor vehicles.

2011. Discontinuity in oil and gas extraction.

2011. Discontinuity in offshore supply.

2011. Discontinuity in ocean transport.

2010. Discontinuity in financial and insurance activities.

Figures for 2021 and 2022 are updated 31 January 2025.

. = Category not applicable. Figures do not exist at this time, because the category was not in use when the figures were collected.

: = Confidential. Figures are not published so as to avoid identifying persons or companies.

region: 1 January 2020, the municipality 1852 Tjeldsund was moved from Nordland to Troms og Finnmark.
