

**P031. SEX BY MARITAL STATUS FOR THE POPULATION 15 YEARS AND OVER - Universe:
POPULATION 15 YEARS AND OVER**

Data Set: [2002 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	467,599	466,804	468,394
Male:	239,789	237,606	241,972
Never married	69,563	64,148	74,978
Now married:	139,612	134,842	144,382
Married, spouse present	130,491	125,869	135,113
Married, spouse absent:	9,121	7,563	10,679
Separated	3,903	2,365	5,441
Other	5,218	4,230	6,206
Widowed	4,817	3,885	5,749
Divorced	25,797	23,482	28,112
Female:	227,810	225,632	229,988
Never married	49,076	46,230	51,922
Now married:	137,683	134,601	140,765
Married, spouse present	128,648	125,663	131,633
Married, spouse absent:	9,035	7,411	10,659
Separated	5,181	4,138	6,224
Other	3,854	2,588	5,120
Widowed	13,638	11,983	15,293
Divorced	27,413	25,387	29,439

Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '**' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
