	\$50,000–74,999	107	18%	523
	\$75K+	148	22%	671

n = Number of respondents who report ever told by doctor that they have high blood pressure.

% = This is a weighted (adjusted) percentage of the state population (adult) at risk in this demographic subgroup, based on the survey data.

N = Total number of respondents in this subgroup.

95% CI = 95% Confidence Interval; the range of values within which the true value of a prevalence estimate would be expected to fall within, 95% of the time.
