

C24030

SEX BY INDUSTRY FOR THE CIVILIAN EMPLOYED POPULATION 16 YEARS AND OVER

**Universe: Civilian employed population 16 years and over
2010 American Community Survey 1-Year Estimates**

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the [official counts of the population and housing units for the nation, states, counties, cities and towns](#).

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

	Alaska	
	Estimate	Margin of Error
Total:	337,683	+/-5,648
Male:	181,330	+/-3,279
Agriculture, forestry, fishing and hunting, and mining:	14,932	+/-2,237
Agriculture, forestry, fishing and hunting	3,702	+/-792
Mining, quarrying, and oil and gas extraction	11,230	+/-2,144
Construction	20,790	+/-2,729
Manufacturing	11,224	+/-1,879
Wholesale trade	5,485	+/-1,831
Retail trade	18,514	+/-2,227
Transportation and warehousing, and utilities:	19,874	+/-2,430
Transportation and warehousing	17,060	+/-2,365
Utilities	2,814	+/-677
Information	3,151	+/-851
Finance and insurance, and real estate and rental and leasing:	5,587	+/-1,288
Finance and insurance	2,048	+/-1,047
Real estate and rental and leasing	3,539	+/-910
Professional, scientific, and management, and administrative and waste management services:	13,904	+/-1,895
Professional, scientific, and technical services	8,797	+/-1,444
Management of companies and enterprises	99	+/-93
Administrative and support and waste management services	5,008	+/-1,036
Educational services, and health care and social assistance:	20,260	+/-1,853
Educational services	10,123	+/-1,242
Health care and social assistance	10,137	+/-1,450
Arts, entertainment, and recreation, and accommodation and food services:	15,161	+/-2,116
Arts, entertainment, and recreation	3,448	+/-844
Accommodation and food services	11,713	+/-1,914
Other services, except public administration	6,099	+/-1,333
Public administration	26,349	+/-2,838
Female:	156,353	+/-4,071
Agriculture, forestry, fishing and hunting, and mining:	2,587	+/-666
Agriculture, forestry, fishing and hunting	1,283	+/-493
Mining, quarrying, and oil and gas extraction	1,304	+/-475
Construction	3,372	+/-896
Manufacturing	3,945	+/-996
Wholesale trade	1,620	+/-762
Retail trade	18,342	+/-2,030
Transportation and warehousing, and utilities:	5,740	+/-1,287
Transportation and warehousing	4,799	+/-1,246
Utilities	941	+/-345
Information	3,253	+/-967
Finance and insurance, and real estate and rental and leasing:	7,390	+/-1,461

	Alaska	
	Estimate	Margin of Error
Finance and insurance	4,805	+/-1,279
Real estate and rental and leasing	2,585	+/-761
Professional, scientific, and management, and administrative and waste management services:	10,828	+/-1,491
Professional, scientific, and technical services	7,852	+/-1,248
Management of companies and enterprises	52	+/-67
Administrative and support and waste management services	2,924	+/-977
Educational services, and health care and social assistance:	58,358	+/-3,211
Educational services	21,651	+/-2,196
Health care and social assistance	36,707	+/-2,858
Arts, entertainment, and recreation, and accommodation and food services:	15,322	+/-1,860
Arts, entertainment, and recreation	3,414	+/-803
Accommodation and food services	11,908	+/-1,722
Other services, except public administration	7,005	+/-1,461
Public administration	18,591	+/-2,189

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
