

B24050

INDUSTRY BY OCCUPATION FOR THE CIVILIAN EMPLOYED POPULATION 16 YEARS AND OVER

Universe: Civilian employed population 16 years and over
2010 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the [official counts of the population and housing units for the nation, states, counties, cities and towns.](#)

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

	Alaska	
	Estimate	Margin of Error
Total:	337,683	+/-5,648
Agriculture, forestry, fishing and hunting, and mining:	17,519	+/-2,359
Agriculture, forestry, fishing and hunting	4,985	+/-960
Mining, quarrying, and oil and gas extraction	12,534	+/-2,245
Construction	24,162	+/-3,019
Manufacturing	15,169	+/-2,333
Wholesale trade	7,105	+/-2,338
Retail trade	36,856	+/-3,141
Transportation and warehousing, and utilities:	25,614	+/-2,843
Transportation and warehousing	21,859	+/-2,760
Utilities	3,755	+/-787
Information	6,404	+/-1,393
Finance and insurance, and real estate and rental and leasing:	12,977	+/-2,220
Finance and insurance	6,853	+/-1,865
Real estate and rental and leasing	6,124	+/-1,261
Professional, scientific, and management, and administrative and waste management services:	24,732	+/-2,439
Professional, scientific, and technical services	16,649	+/-1,900
Management of companies and enterprises	151	+/-146
Administrative and support and waste management services	7,932	+/-1,671
Educational services, and health care and social assistance:	78,618	+/-4,026
Educational services	31,774	+/-2,596
Health care and social assistance	46,844	+/-3,417
Arts, entertainment, and recreation, and accommodation and food services:	30,483	+/-2,905
Arts, entertainment, and recreation	6,862	+/-1,070
Accommodation and food services	23,621	+/-2,726
Other services, except public administration	13,104	+/-2,107
Public administration	44,940	+/-3,588
Management, business, science, and arts occupations:	118,437	+/-4,662
Agriculture, forestry, fishing and hunting, and mining:	5,515	+/-1,277
Agriculture, forestry, fishing and hunting	1,218	+/-463

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of

error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
