

EMPLOYER-BASED HEALTH INSURANCE BY SEX BY AGE
Universe: Civilian noninstitutionalized population
2016 American Community Survey 1-Year Estimates

Tell us what you think. [Provide feedback to help make American Community Survey data more useful for you.](#)

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:

Total:	718,419	+/-1,649
Male:	371,645	+/-2,505
Under 6 years:	31,511	+/-1,196
With employer-based health insurance	11,711	+/-1,410
No employer-based health insurance	19,800	+/-1,831
6 to 17 years:	67,659	+/-1,735
With employer-based health insurance	34,746	+/-2,205
No employer-based health insurance	32,913	+/-2,357
18 to 24 years:	37,131	+/-1,598
With employer-based health insurance	20,889	+/-2,066
No employer-based health insurance	16,242	+/-2,434
25 to 34 years:	56,692	+/-1,730
With employer-based health insurance	29,947	+/-2,029
No employer-based health insurance	26,745	+/-2,107
35 to 44 years:	43,976	+/-1,857
With employer-based health insurance	26,833	+/-1,875
No employer-based health insurance	17,143	+/-1,948
45 to 54 years:	48,061	+/-1,637
With employer-based health insurance	31,602	+/-1,977
No employer-based health insurance	16,459	+/-1,865
55 to 64 years:	49,440	+/-1,758
With employer-based health insurance	30,662	+/-1,841
No employer-based health insurance	18,778	+/-1,881
65 to 74 years:	27,030	+/-680
With employer-based health insurance	14,443	+/-1,257
No employer-based health insurance	12,587	+/-1,249
75 years and over:	10,145	+/-499
With employer-based health insurance	5,400	+/-726
No employer-based health insurance	4,745	+/-708
Female:	346,774	+/-2,479
Under 6 years:	31,184	+/-1,530
With employer-based health insurance	14,198	+/-1,825
No employer-based health insurance	16,986	+/-1,500
6 to 17 years:	56,485	+/-1,526
With employer-based health insurance	28,331	+/-2,296
No employer-based health insurance	28,154	+/-2,540
18 to 24 years:	31,003	+/-1,263
With employer-based health insurance	16,042	+/-1,621
No employer-based health insurance	14,961	+/-1,562
25 to 34 years:	56,830	+/-2,076
With employer-based health insurance	29,424	+/-2,023
No employer-based health insurance	27,406	+/-2,181
35 to 44 years:	45,163	+/-1,504
With employer-based health insurance	27,521	+/-1,657
No employer-based health insurance	17,642	+/-1,545
45 to 54 years:	43,186	+/-1,302
With employer-based health insurance	26,764	+/-1,273
No employer-based health insurance	16,422	+/-1,624
55 to 64 years:	45,702	+/-860
With employer-based health insurance	29,903	+/-1,617
No employer-based health insurance	15,799	+/-1,502
65 to 74 years:	24,784	+/-773
With employer-based health insurance	11,802	+/-1,080
No employer-based health insurance	12,982	+/-1,201

Explanation of Symbols:

An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-.' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+.' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18 for a list of the insurance type definitions.

While the 2016 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
